

Zane Foster

Profile

I grew up in Northern California with a love of visual storytelling and have been shooting photos and videos for about 11 years now. After getting my bachelor's degree in film production from CSU Northridge in Los Angeles, I interned with famous adventure and landscape photographer/filmmaker Chris Burkard in 2017 where I assisted the studio with social media, shoots, film editing, and gallery management.

Since my time with Chris I've focussed on my own photo and video business. My personal work includes wedding portraits, real estate, short films, advertisements, landscape photography, photoshop compositions, and more. I look forward to shooting and editing everyday, capturing real moments, and bringing light to environmental and cultural issues.
